

## ODM / OEM Services

**17 Years of Design and Manufacturing expertise**  
**ISO 9001:2008 Certified**

Visiontek in INDIA is a leading designer and manufacturer of various customer premises telecom terminal equipment for the Telecom, Banking and Industrial automation segments. Visiontek is a strategic partner to many of the world's popular Telco's, Banks, utilities and other organizations for supply of Fixed Cellular Terminals, Payphones, Wireless modems, Transaction terminals in GSM/CDMA/IP/Wi-Fi/LAN technologies. With State-of-the-art infrastructure and computerized processes fueling growth, Visiontek now offers its broad spectrum expertise spanning across design, development, manufacturing and support services to its ODM/OEM clientele.

## Electronic Systems Design

Visiontek adopted RoHS compliant product development and life cycle management processes which confirm to CMM Level 5. We equipped with State-of-the-art design and modeling tools for PCB, Circuit design, Software and Systems design. This enables us to deliver quality products to our customers as per their requirements. Our advanced PCB design and modeling tools gives us an edge over our competitors.

## User Interface and Software Design

Visiontek through its readily available software inventory and development expertise can deliver quality software to our customers as per the requirements. Our software expertise spectrum spans connectivity technologies such as GSM/CDMA/PSTN/IP and Wi-Fi for various targeted segments.

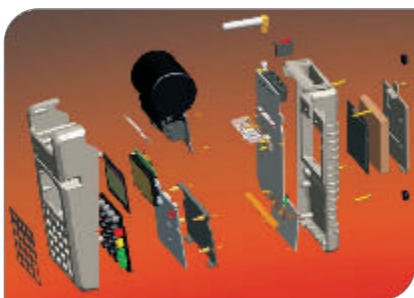

EVD Login Screen

- Embedded H/W & S/W development
- Application software development
- Technology areas:
  - GSM/CDMA/PSTN/IP and Wi-Fi
- Device driver software
- Competency on DSP, ARM and FPGA platform

## Industrial Design and Mechanical Engineering

We at Visiontek with well experienced Industrial design and Mechanical engineering teams committed to deliver products to our customers with good aesthetics through a seasoned RAID process.

Our forward and backward integrated mechanical assembly and plastic injection moulding lines enables us to deliver prototypes, products to our customers as per the committed time lines.

3D Model (Exploded View)

CNC Turret Punch Press

- Mechanical Engineering
- Industrial Design
- Tool Design
- Prototyping
- Plastic Injection Moulding

## Component Solutions

Visiontek with more than a decade experience in Electronic goods manufacturing is committed to source out cost effective and suitable components from our vendors across the globe.

## After Market Services

Visiontek has marketing and support reach in 35 countries as well as in India. Our wide geographic presence across the globe enables us to support our business and technology partners in their product launches.

## Test and certification laboratories

GTM Cell

Test Lab

Vibration Analysis Lab

## SMT Line

We are equipped with modern facilities like fully automated SMT line, plastics and metal forming machinery and in-house product test facilities for EMI / EMC, Safety, Environmental and Reliability with dependable and trust worthy instrumentation from top brands in the business. These facilities help us to perform free certification and certification tests such as CE, ESS, HALT to our customers.

## Some of our valued customers

# Expertise & Infrastructure

Visiontek has 14 years of experience in design, manufacture and marketing of customer premise telecom equipment in GSM/CDMA/PSTN/IP and Wi-Fi.

Our product development and life cycle management happens on CMM Level 5 compliant process. We are equipped with advanced IT tools for workflow, process integration, design, simulation and modeling.

Our facilities spread across 100,000 Sft. across India. We are an ISO 9001-2000 certified company. Our manufacturing facility is compliant to ISO14644-1 for clean room environment.

Our product assembly lines can handle forward and backward integration. Mechanical engineering and tool design is supported by advanced product prototyping capabilities like CNC machinery, plastic injection moulding etc.
