

EMS POLICY

“The Organization is committed to prevent pollution through minimizing its environmental impact by complying with applicable legal and other environmental regulations and applying "reduce, reuse and recycle" principles in its processes.

We committed to promote the environmental responsibility among the employees and other interested parties and periodically reviews the objectives and targets for continual improvement of environmental management system.

EMS policy is communicated to all persons working for or on behalf of Linkwell Telesystems Pvt. Ltd., and is made available to public through company website or provided upon request.”

A. KRISHNA PRASAD
